# Standard VR Hardware

Ino-VR puts at your disposal its tests, its knowledge, and its hardware partners to find the solution best suited to your needs :

## PC VR Headset

## PC Desktop VR Ready

## Standalone VR Headset

## Laptop VR Ready

# VR accessories

**Ino-VR** also offers **essential accessories for the use of virtual reality** in companies: VR headset protection, disinfection kit, VR tripods, Vive trackers, transport case...

Thanks to this, you will have **only one supplier for all your equipment.**

# Customized products

Our technical teams are at your disposal to study your customization projects.

We draw your foam plans and develop with you your custom and scalable virtual reality equipment.

Our products are compatible with all RV helmets on the market.

## *Services for a smooth deployment.*

We offer **many services** adapted to professionals: the **financing** aspect through **long-term leasing**; a **premium after-sales service** to ensure business continuity; virtual reality **training** for a transfer of skills; WEEE waste treatment to **safeguard the planet**.

# Services for professionals

## MAINTENANCE

Our computer maintenance contracts are adapted to your needs. The continuity of your company is guaranteed.

From the hotline, through remote intervention, to on-site intervention, everything is possible.

These maintenance contracts are carried out by technical teams certified and recognized by the world's leading IT manufacturers and integrators.

## FINANCING

The leasing of new technologies represents a solution appreciated by companies.

Benefit from a configuration at the cutting edge of innovation thanks to the possibility of renewal.

Your rents are charged to operating expenses and are fully deductible from taxable income. Your cash remains available to finance more profitable activities.

## ECOLOGY

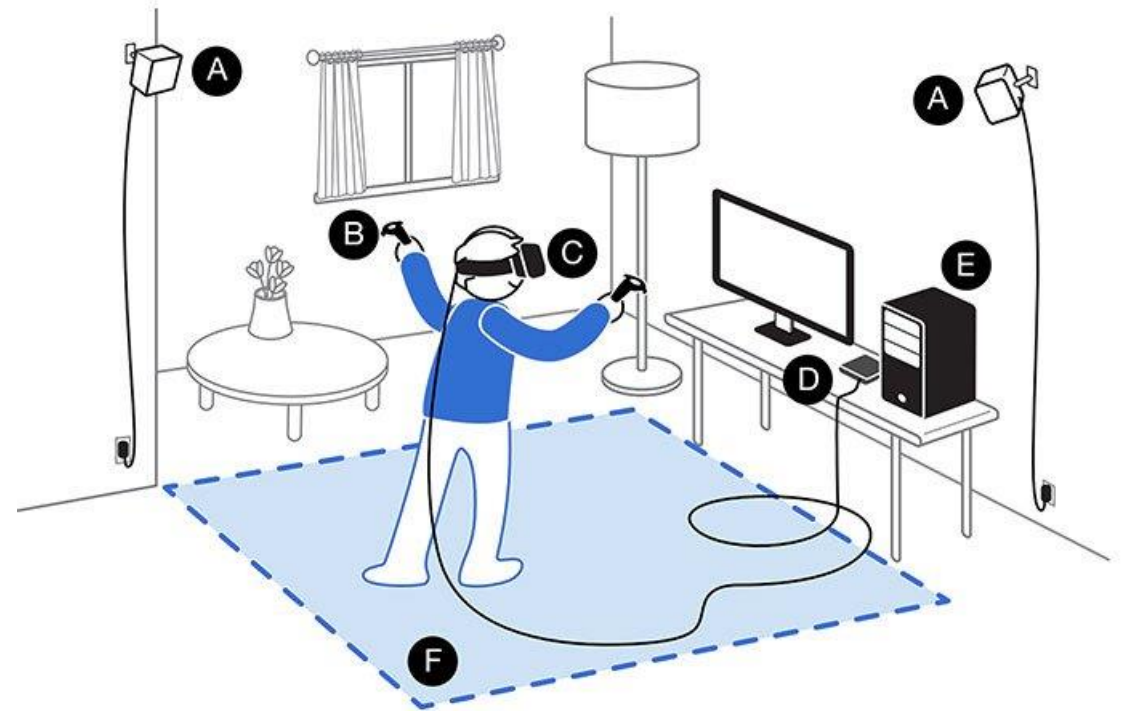

The production of electrical and electronic waste in the world represents 44.7 million tons, the equivalent of 1400 kg per second.

European directives require European companies to rigorously manage their waste electrical and electronic equipment (WEEE).

Thanks to leasing, you no longer have to worry about your WEEE responsibilities, we take care of them.

# Training for VR using

**Ino-VR support you** in your deployment of immersive equipment by offering **training** in the **use of virtual reality**. Around a coffee and a **passionate team**, we will teach you how to **manage this new technology** to get the best out of it.

All Ino-VR products are made in France. We work with French partners as much as possible for our French customers and we are proud to export our know-how internationally.

**They trust us :**
